

Connectors

The increasing number of threat vectors have pushed organizations to utilize a large number of assets that track entities, scan for vulnerabilities, collect data, and more. RiskVision works with some of the leading assets like QualysGuard, BMC Remedy, and Microsoft AD to form a robust foundation of data that can be mapped to business processes to assess risk and manage responses in real-time.

Generic Technology Connectors

Generic Database Connector
Generic Web Services Connector
Generic Flat File Connector

Configuration and Patch Management

IBM Tivoli Endpoint Manager Connector (formerly BigFix)
IBM Internet Security Systems Proventia Management Site-Protector Connector
Solarwinds Orion Network Configuration Manager Connector
Symantec Altiris Security eXpress Connector
McAfee ePolicy Orchestrator Connector
BMC BladeLogic Connector
Microsoft SCCM Connector
NetIQ Secure Configuration Manager Connector (Web Services)
NetIQ Secure Configuration Manager Connector (Big Data)
Tripwire Enterprise for Security Configuration Management
Symantec Bindview Connector

Vulnerability Scanning (Assets)

McAfee Vulnerability Manager Connector (formerly Foundation)
Skybox Risk Exposure Analyzer Connector
Rapid 7 Nexpose Enterprise Connector
RedSeal Vulnerability Advisor Connector
Checklist Connector (includes DISA and eEye)
Tripwire IP360 for Vulnerability Connector (formerly nCircle) (Web Services)
Tripwire IP360 for Vulnerability Connector (formerly nCircle) (Big Data)
Qualys QualysGuard Vulnerability Connector (Web Services)
Qualys QualysGuard Vulnerability Connector (Big Data)
Tenable Nessus Connector (Web Services)
Tenable Nessus Connector (Big Data)

Vulnerability Scanning (Applications)

HP WebInspect Connector
IBM Rational AppScan Connector
HP Fortify Connector
Veracode Connector
McAfee Secure Connector
WhiteHat Security Sentinel Connector
Trustwave TrustKeeper Connector (vulnerability management data only)

Ticketing

BMC Remedy Connector
HP Service Manager Connector (formerly Peregrine)
IBM Maximo Connector
ServiceNow Connector
'Generic' Auto-Ticketing Connector (Big Data)

Event and Incident Management

HP ArcSight ESM Connector (Web Services)
HP ArcSight ESM Connector (Big Data)
Symantec Endpoint Protection Manager Connector
BMC Remedy to Incident Connector
Microsoft Exchange Event Management Connector
Splunk Enterprise Connector
Configuration Management Database (CMDB)
BMC Atrium Connector
HP Service Manager for Asset Management Connector
Microsoft Active Directory Connector
Symantec Altiris Asset Management Suite Connector
CA Configuration Management Database (CMDB) Connector (Big Data)

Threat and Vulnerability Data Feed Advisory Service

Verisign iDefense Security Intelligence Services Connector
National Vulnerability Database Connector (Web Services)
National Vulnerability Database Connector (Big Data)**
Financial Services – Information Sharing Analysis Center (FS ISAC) Connector (Web Services)

Application / Database Scan

Application Security DbProtect Connector
Application Security AppDetectivePro Connector

Data Loss Prevention

Symantec Data Loss Prevention Connector (formerly Vontu: discovery only)

Business Applications

Oracle PeopleSoft Connector
Zycus Connector
